

Call: September 29th, 2022

Strategy: Venture Capital

Basis for the selection of up to three private equity management companies or investment vehicles ("Management Companies" or "Management Company"), investing in Venture Capital, where Fond-ICO Global will commit to invest

FIRST – Executive Summary and Legal Nature of the Selection Procedure

On May 24, 2013, Axis Participaciones Empresariales SGEIC S.A. S.M.E., ("Axis") created Fond-ICO Global, FCR, ("Fond-ICO Global") with the aim of investing in private equity firms that invest in Spanish companies.

Fond-ICO Global is a private equity entity regulated by the Comisión Nacional del Mercado de Valores (CNMV) and therefore its investments are subject to compliance with law 22/2014, 12th November, which regulates private equity entities, as well as any other new legislation which comes into effect.

Axis carried out a public tender process to screen potential advisors in which Deloitte Financial Advisory, S.L.U. was awarded sole advisor for the design, implementation and monitoring of Fond-ICO Global.

Axis, Fond-ICO Global's manager, acting in accordance with its objectives, has issued the current tender process with the objective of committing capital from Fond-ICO Global to a maximum of three (3) venture capital funds. The selection of the Management Companies managing those funds will be implemented through a qualification and evaluation process which adheres to the principles of equality, transparency and fair competition and whose development, implementation, scope and limits are solely governed by the terms set out in this Basis.

The Public Sector Contract Laws are not applicable to this selection process given Axis' legal nature and the objective of this process.

The term "venture capital funds" refers to those funds that meet the following requirements:

- (i) have a target size of at least 30 million euros;
- (ii) funds that typically invest between 250 thousand to 10 million euros per transaction in equity, profit-sharing loans and/or venture debt in technological or innovative unlisted private companies with a high growth potential having been incorporated no more than five (5) years prior to the investment, to finance the expansion into new markets or new products, excluding investment made in senior debt.

In case the company belongs to the health or life sciences sector, it will not be required to have five (5) years prior to the investment although it will need to be in research and / or clinical development phase. Investment strategies focused on digital models, innovation and digital transformation will be viewed favorably in this selection process, and;

- (iii) funds that are or will be incorporated in an OECD member country and registered or authorized with the CNMV or, when required by the applicable

legislation, under the corresponding local regulatory authority of an OECD member country.

The fund's legal documentation must explicitly reflect that the Fund shall not invest, directly or indirectly, in companies whose activity is related to: (i) the sale or production of ammunition and weapons military/police equipment or infrastructures; (ii) projects which result in limiting people's individual rights and freedom, or violation of human rights; (iii) the development and/or implementation of projects unacceptable in sustainability and social terms; (iv) ethically or morally controversial projects.

This selection process targets Management Companies which are 100% privately owned (with no direct or indirect public sector ownership) and manage funds that invest in companies with significant operations in Spain, requiring a minimum of 50% and at least 2.0x of Fond-ICO Global's committed capital invested in Spanish companies. In reference to the above, those entities whose main activity consists of owning shares issued by companies whose main activity is not Spanish, will not comply.

In addition, funds must meet all the qualification requirements set in the Fourth Section of this Basis.

Candidates that shall be excluded from the current selection process (Management Company or Group) are those who:

- Are currently managing a fund of the same strategy that has an approved investment commitment by any fund managed by Axis and whose total committed and deployed capital has not exceeded 60%, unless the investment period of the fund is ended. Those candidates presenting a fund with the same investment strategy and different investment policies from the previous fund, will not be excluded from the present selection process.
- Participate in more than one strategy in this Call.
- Present in the current Call a subcontracted management company.
- Have been selected in previous calls for the management of a fund that has not yet been subscribed by Fond-ICO Global.
- Participate with funds focusing on Sustainability and Social Impact strategies.
- Present the same fund in more than one investment program of any fund managed by Axis.
- Contain in its structure a company or vehicle incorporated in a country that does not belong to the OECD and that is considered a tax haven according to Spanish legislation or a non-cooperative country / territory for tax purposes on the European Union list.

Fond-ICO Global may commit in each fund up to 49% of the total target fund size, with a maximum commitment of 30 million euros. Fond-ICO Global will assign 30 million euros to the selected participants. Notwithstanding, Fond-ICO Global will participate in the different closings, held in accordance with requisites defined in this Basis, with a commitment equivalent to the previously mentioned percentage requested in the offer over the total commitments closed of the vehicle in which Fond-ICO Global will invest, until the maximum of 30 million euros.

As for this Basis, the Total fund target size will be the one identified by the participant in Attachment II (questionnaire) which has been included in the Offer and shall not be less than 30 million euros.

SECOND – Selection Process

The selection process will be structured in the following two phases:

- 1) Qualification phase, where participants should prove that they meet all requirements included in this Basis.
- 2) Evaluation phase, where after the participants qualify via the requirements in phase one, the proposal is analyzed based on the information provided in the questionnaire and any additional documentation provided by participants.

Once all proposals that meet the requirements are evaluated, those three (3) with the highest scores will be selected. Final commitment to the funds will be subject to due diligence processes and to Axis' final approval.

THIRD – Publication of the Selection Process

The publication of the selection process will be available on Axis' website (www.axispart.com) in English and Spanish. In the event of a discrepancy between the content of the English version and the Spanish version, the latter will prevail.

Candidates may request clarifications in reference to this basis to fondicoglobal@axispart.com until October 6th, 2022, at 14:00 hours. Axis will proceed to reply within a period of one (1) week from the completion of the clarifications request period– until October 14th, 2022. For clarification purposes, particularities will not be answered.

This Basis guarantees the confidentiality of the information provided by participants and identified as such in the terms set in the Eleventh Section of this Basis. However, if there are any confidentiality agreements between the participant and third parties, related to the disclosure of certain information that would restrict the participant from providing that information, the latter may submit any additional confidentiality agreements to be evaluated by Axis. Axis reserves the right to incorporate changes and modifications to the submitted documents or to not endorse them in the event they do not meet the criteria required for its acceptance.

These confidentiality agreements should be sent to fondicoglobal@axispart.com before October 6th, 2022, at 14:00 hours. If no answer is received from Axis within a maximum of ten (10) working days, the application for the signature of the confidentiality agreement should be considered rejected. In no case will the deadline for submitting these agreements be extended. Working days shall be those considered as official working days in Madrid.

Axis' Board will then decide on the submitted proposal from the Valuation Committee, related to the selected participants and the reserve candidate.

- 3) Furthermore, in said closing, at least 40% of the size achieved must be committed by investors other than (i) Fond-ICO Global, (ii) the managers, (iii) the management company and/or its shareholders thereof. This minimum percentage must be maintained throughout Fond-ICO Global’s participation in the fund.

- 5) Fond-ICO Global will assign € 30 million to the selected participants. Nevertheless, Fond-ICO Global will participate in the different closings, held in accordance with requisites defined in this Basis, with a commitment equivalent to the previously mentioned percentage requested in the offer over the total fund commitments closed, up to a maximum of 30 million euros assigned to each participant.
- 6) The Management Company must commit to invest at least 50% or at least two times Fond-ICO Global’s committed capital in Spanish companies. This commitment must be reflected in the legal documentation of the fund.

As a consequence of the foregoing, funds selected by Fond-ICO Global may be elected by EIB as part of the financing granted to ICO under the Program. To this extent, Axis will provide EIB with the Limited Partnership Agreement and the documentation provided to the Axis Board for approval of the investment.

The funds' management companies may, at a later time, decide whether to participate in the Program or not. The hypothetical acceptance by the management companies will not imply in any way the existence of a direct relationship between the management companies and EIB.

NINTH – Penalties

The following penalties will apply in the scenarios listed below:

- If in the eighteen (18) months after the selection process resolution decision made by Axis' Board the selected participant fails to hold the closing, representing at least 70% of the total fund target size including Fond-ICO Global's in the conditions set forth in the Eight Basis, Fond-ICO Global will withdraw its commitment.
- 24 months after the resolution of the election process resolution decision made by Axis' Board, Axis will automatically release Fond-ICO Global's unsubscribed commitment.
- Should the fund in which Fond-ICO Global has made its commitment to not meet its commitment of investing in Spanish companies (either by percentage of the fund or absolute value) after the investment period ends (excluding possible extensions), the Management Company will have to indemnify Fond-ICO Global following the penalties listed below:

Compliance with minimum commitment to invest in Spain	
At least 80% or more in compliance with criteria	NO MANAGEMENT FEE ADJUSTMENTS

Between 60% and 80% in compliance with criteria	25% refund of the management fee charged to the fund related to Fond-ICO Global's commitment
Between 40% and 60% in compliance with criteria	50% refund of the management fee charged to the fund related to Fond-ICO Global's commitment
Under 40% in compliance with criteria	75% refund of the management fee charged to the fund related to Fond-ICO Global's commitment

In no case may the refund result in management fees charged by the fund on Fond-ICO Global's commitment below 0.5%.

Fond-ICO Global's following draw-downs will be reduced by the corresponding reimbursement until the Management Company has returned the total amount due. No delayed interest will be charged to Fond-ICO Global, nor would Fond-ICO Global be considered a defaulting investor as a result of the application of the penalties described in this Basis.

- Should quarterly reports not be submitted in the time and form set out in Attachment IV, Fund-ICO Global will receive 1% of the management fees corresponding to that quarter, per day delayed, until appropriately submitted.
- Should the fund's annual audited financial statements not be submitted in the allowed timeframe, Fund-ICO Global will receive 1% of the management fees corresponding to that quarter, per day delayed, until appropriately submitted.
- Should issued capital calls notices not meet the format set out in Attachment V, Fond-ICO Global will receive 1% of the management fees corresponding to that quarter, per day delayed, until appropriately submitted.
- Should distribution notices not meet the format set out in Attachment V, Fond-ICO Global will receive 1% of the management fees corresponding to that quarter, per day delayed, until appropriately submitted.
- Should the Management Company or the fund not comply with the applicable anti-money laundering regulation, Fond-ICO Global will be released from future capital calls until the regulation is complied with. As a consequence, no delayed interest will be charged to Fond-ICO Global, nor would Fond-ICO Global be considered a defaulting investor.
- Should the selected Management Company or its management team fail to fund its proportional share of any capital call, Fond-ICO may:
 - a) Receive a compensation equal to 100% of the management fees for the corresponding quarter in which the Management Company or the management team does not meet its commitment and/or
 - b) Be released from future capital calls until the Management Company or its management team meet its commitment. As a consequence, no delayed interest will be charged to Fond-ICO Global, nor would Fond-ICO Global be considered a defaulting investor.

Any other failure to comply with the objective and set requirements in this Basis as well as those requirements that have been determinant in the selection of the participant, throughout the life of the fund will enable Fond-ICO Global to:

- a) Receive compensation equal to 100% of the management fees corresponding to Fond-ICO Global until remedied when applicable and/or
- b) Be released from future capital calls until the Management Company and its management team meet its commitment or obligation. As a consequence, no delayed interest will be charged to Fond-ICO Global, nor would Fond-ICO Global be considered a defaulting investor and/or
- c) Require the Management Company, who is obligated to comply with facilitating Fond-ICO's exit of the fund at market price

Should one of the above penalties take place, the Management Company will be required to fill out the template in Attachment VI.

TENTH – Formalization of the Commitment

Prior to Fond-ICO Global signing its commitment, Fond-ICO Global will proceed with a final due diligence process on the Management Company and the investment vehicle to which Fond-ICO Global will commit. Fond-ICO Global will conduct Due Diligence when necessary on all the parallel vehicles composing the fund structure.

For clarification purposes, Fond-ICO Global's commitment will be calculated based on the target size of the investment vehicle in which it will invest.

Likewise, the proposal submitted regarding the investment amount allocated to Spain will be calculated based on the target size of the investment vehicle in which Fond-ICO Global will invest or based on Fond-ICO Global's commitment to that investment vehicle. Notwithstanding, all investment amounts from the entire investment structure will be considered in order to comply with the investment amount allocated to Spain.

Fond-ICO Global's commitment will be formalized with each selected participant that successfully passed the Final Due Diligence process by subscribing a subscription agreement and the required side letters. A side letter template can be found as Attachment VII.

The Management Company will have to modify, when applicable and to Axis satisfaction, its legal documentation so that it includes the fund main terms and conditions detailed on Attachment VIII.

In addition, the management company shall undertake to grant Fond-ICO Global the right to avail itself of any conditions offered to other investors, with the exception of the management team.

The validity and effectiveness of the formalized commitment is subject to the conditions set forth in the Basis.

ELEVENTH – Confidentiality

Axis agrees not to disclose the information received from the participants regarded as confidential by them, except in the case of an injunction or as mandated by a government authority. In particular, this refers to trade secrets and to all confidential subjects within the proposals.

TWELFTH – Jurisdiction

This tender process is governed by the Spanish law.

The parties irrevocably agree to submit to the exclusive jurisdiction of the Courts of Madrid, Spain, for the purpose of this selection process and agree that, accordingly, any suit, action or proceeding deriving from or in connection with this selection process shall be brought to such Courts. Such jurisdiction will be applicable to any dispute or litigation in connection with Fond-ICO Global's investment (covering, for clarification purposes, any litigious matter which could arise from the execution or interpretation of the legal documentation of the fund and/or side letter, regardless of the jurisdiction established in such documentation).

1992, the company provides free personalized information about eldercare facility options to tens of thousands of families each month. To do so, Company 3 generates leads primarily from online marketing sources and converts them to move-ins through its nationwide network of 750 eldercare advisors.

On September 15, 2007, BP led a consortium, which completed the acquisition of Company 3 for a total effective consideration of \$60 million excluding third-party transaction fees. BP II invested \$5 million for a 12% equity stake in a transaction that included \$19m of debt. In October 2009, BP II provided \$5.0 million of debt as part of a restructuring, following a covenant breach.

VALUATION METHODOLOGY

multiple of EBITDA approach, we used an 8.3x multiple on LTM EBITDA as of YE 2009. We kept Company A's multiple flat to last quarter as a result of the wide range and inter quarter volatility valuation multiples for the trading comparables. To determine the discount rate, we calculated the WACC using the industry comparables as guidelines. Using the discount rate of 11% and with exit multiples ranging from 7.5x to 8.5x, we calculated a total equity value in the range of \$102.2 million to \$154.6 million. This analysis implies a mid-point value of \$128.4 million or \$77.6 million in equity value for the Fund. Evaluating Company A using these two methodologies implied a valuation range of \$32.9 million to \$77.6 million for the Fund's interest in Company A. Given this analysis, the increase in multiples and positive EBITDA trends in the business, we believe it is appropriate to value Company A at \$42.5 million or 55% of cost.

RISK ASSESSMENT/UPDATE

Given the declining amount of eldercare referrals in our target region coupled with rising online marketing prices, the company's covenant headroom remains tight and will be an area of significant focus over the coming months.
